

MARYLAND SBR-CERTIFIED SMALL BUSINESS

OPEN TO TEAMING IN MARYLAND STATE

Provaxis Group is a Maryland-certified small business available to team on state technology programs — named executive experience and executive-level judgment a prime can put to work in a proposal or on a task order, without adding a full delivery build-out to the team. The role can be scoped to fit: independent IV&V for oversight requirements, embedded advisory support alongside the prime's own delivery team, or direct leadership of a modernization effort.

WHAT WE BRING TO A TEAM

Portfolio & Investment Governance

Fills the business-case and investment-decision role on a task order.

Business case development • Investment prioritization • Governance and decision frameworks

Independent Program Assessment (IV&V)

Fills a named IV&V or program-assessment labor category.

Program health assessments • Independent verification & validation • Status and risk reporting

Vendor & Procurement Strategy

Fills the procurement-strategy or requirements-shaping role pre-award.

RFP and SOW shaping • Vendor evaluation • Procurement strategy and oversight design

Modernization Program Leadership

Fills a program or delivery leadership role directly — not just an advisory seat.

Legacy system modernization • DevSecOps and human-centered design • Delivery oversight and roadmap execution

FOUNDER EXPERIENCE FOR KEY PERSONNEL QUALIFICATIONS

Led or overseen by Mo Adeyoju prior to and outside of Provaxis Group.

Portfolio scale: \$300M+ technology portfolios • \$400M+ investment influence • 250+ professionals under direct hiring authority

- **SSA** — Disability Case Processing System (DCPS)
- **CMS** — QMARS beneficiary case review; Medical Review Documentation Compliance & Technology; Website Quality Control (IV&V)
- **FDA** — MARCS — the agency's largest modernization program: field inspection, compliance, and enforcement
- **DHS USCIS** — SPEED — DevSecOps and human-centered design across benefits and customer service
- **EPA** — Clean Air Markets Division (CAMD) emissions monitoring and compliance data systems
- **VA** — Clinical software regulated as an FDA medical device; benefits portfolio IV&V; workflow automation; data discovery and privacy impact assessments

WHY TEAM WITH PROVAXIS

Flexible Role Structure

Available as independent IV&V where oversight separation is required, or as embedded advisory support alongside the prime's own delivery team — scoped to what the task order needs.

Certification Value

Maryland SBR/CSB-certified small business — usable for Maryland small-business subcontracting credit and set-aside requirements.

Named Executive Experience

Six federal agencies, named programs, and quantified portfolio scale — material a proposal writer can use in key personnel resumes and technical narrative.

Single Point of Contact

Direct access to the founder for scoping, rate discussions, and proposal support. No account layer in between.

Maryland-Based

Headquartered in Maryland, with the state credentials and agency-side context to support Maryland-based task orders.

ABOUT THE FOUNDER

Mo Adeyoju
Founder & CEO

Mo Adeyoju spent her career as an executive inside federal technology programs — setting portfolio direction, governing technology investment, and carrying accountability for the outcome across health, benefits, immigration, and environmental agencies.

She brings that judgment to a teaming role: scoped, senior-level input a prime can plug into a proposal or task order without adding headcount to the delivery team.
